Emma FitzGerald, VP Global Retail Network, Shell International:

"A stimulating and energizing experience. The Harvard case approach really supported practical discussion of the dilemmas facing Boards and reinforced the importance of culture and human interaction in the way that corporate governance is evolving and being applied. I have plenty of insights to take back and apply to the boards I am sitting on!"

Erna Arnesen, Vice President, Global and Strategic Services Partners, Cisco Systems:

"I found the program immensely educational and engaging. I learned a great deal about board governance, board challenges and best practices of successful boards. I also found the content around corporate strategy, talent and execution to be very useful, including world class professors."

Fer Amkreutz, President, APG Asset Management Asia:

"Insightful and complete. Very inspiring environment with new thoughts and dynamic interactions guided by an inspiring case method approach in analyzing the specific case studies I received. Seminar schedule

The seminar begins on Day 1 with the Current Board Environment and Role of the Board. The event then moves on to focus on a three-fold approach to tackling current board issues in specific, concrete and constructive ways.

DAY 1 | THE CURRENT BOARD ENVIRONMENT AND THE ROLE OF THE BOARD IN STRATEGY AND RISK OVERSIGHT

Boards require prospective, new and seasoned directors who are able to stay ahead of the curve on key governance issues and leading practices. The Current Board Environment module will not only address leading practices in developed nations but will also include a spotlight on the corporate governance challenges that corporate boards and the board of trustees of institutional investor's councils face in emerging markets investments. When emerging markets exhibit mid-cycle characteristics such as higher inflation, rising food prices, and vulnerable profit margins, it becomes a challenging task to deploy micro-driven over macro-driven strategies and to select companies with a degree of comfort in risk-return tradeoffs and corporate governance transparency.

Afternoon BOARD STYLE AND BOARD DYNAMICS

In an interactive session, we discuss ideas for an optimum board dynamics environment and obtain insight into board governance behavior, style and effectiveness, using a proprietary psychometric model. Participants will complete a self-assessment online tool to identify their own personal governance style and explore the factors which contribute to functional and dysfunctional board behavior.

DAY 2 | BOARD COMPOSITION, ROLES, AND RESPONSIBILITIES

This part of the program addresses ways to maximize the effectiveness of the board's individual member contributions. Topics include designing the board's structure, the board's role in strategic planning and goal setting, choosing directors and understanding their legal responsibilities, designing optimal strategies for external reporting and disclosure, and using committees.

DAY 3 | EFFECTIVE MEETINGS AND INFORMED DECISIONS

This section of the executive seminar focuses on how to lead dynamic, constructive board meetings with time-efficient agendas. It deals with the benefits of structuring different types of meetings, and ways to identify exactly which information and metrics boards need to understand and monitor company strategy.

DAY 4 | MONITORING, MEASUREMENT, AND COMPENSATION

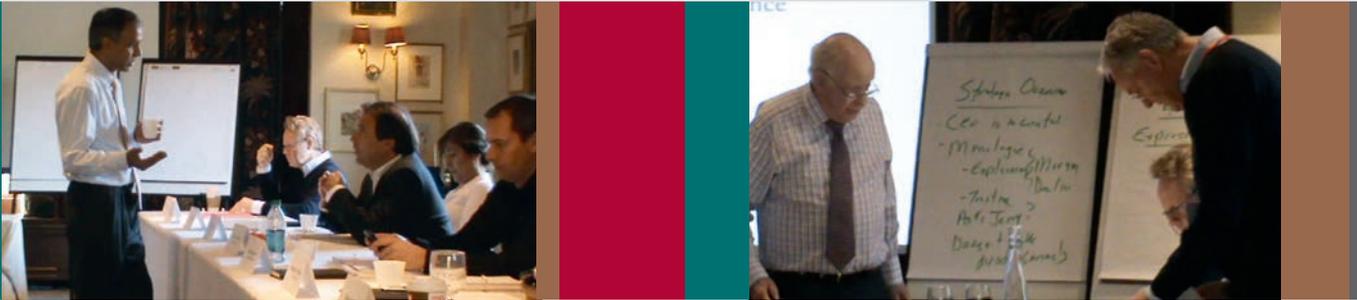

The area of evaluation and compensation can be highly charged in today's economic climate. This section of the seminar deals with evaluating CEO performance and compensation, planning management succession, evaluating the board and its members, and determining director compensation and stock ownership.
